PREETI SHARMA

Supply Chain & Lifecycle Manager | MedTech & High-Tech Industries

Eindhoven, Netherlands · preeti.sharma1786@gmail.com · +31 6 35630826 · linkedin.com/in/preeti-s-78b724152

PROFESSIONAL SUMMARY

Supply Chain & Lifecycle Management professional with 6+ years of international experience across MedTech and high-tech environments, currently driving end-of-life (EOL) and obsolescence strategy at Philips. Experienced in managing global hardware portfolios, improving forecast accuracy, and optimizing working capital in regulated environments (GMP/GDP/QMS). Proven track record in cross-functional decision-making, supplier coordination, and process standardization. MBA in Supply Chain Management from Maastricht University, Lean Six Sigma Green Belt, and Certified ScrumMaster.

CORE COMPETENCIES

✓ EOL & Obsolescence Strategy
✓ Inventory & Working Capital Optimisation
✓ Cross-functional Stakeholder Management
✓ S&OP & Demand Planning
✓ Regulatory Compliance (GMP/GDP/QMS)
✓ Process Improvement (Lean / CAPA)
✓ SAP (MM/WM) & Power BI
✓ Vendor Negotiation & Procurement
✓ Advanced Excel & Scenario Modelling

PROFESSIONAL EXPERIENCE

Lifecycle Manager | Philips Medical Systems Nederland B.V. · Best, Netherlands *Oct 2024 – Present*

- Own EOL and obsolescence strategy for a global MedTech hardware portfolio, ensuring continuity of supply across regulated markets (EU & international).
- Improved balance sheet accuracy by developing forecasting models combining installed base, failure rates, and consumption data.
- Reduced excess and obsolete inventory *(20%)* by driving structured disposition planning and aligning demand-supply decisions across lifecycle stages.
- Developed data-driven forecasting models integrating installed base, failure rates, and consumption patterns, improving forecast accuracy (MAPE) from ~62% to ~78% across global hardware portfolio.
- Reduced cross-functional decision cycle time from *2 months to 20 days* introducing structured governance across supply chain, procurement, finance, and regulatory stakeholders.
- Mitigated risk of component obsolescence by aligning demand, supply, and compliance constraints in lifecycle planning.

Supply Chain Intern | Philips Medical Systems Nederland B.V. · Best, Netherlands *Feb 2024 – Sep 2024*

- Designed and implemented a standardized NOK handling process within QMS for complex hardware supply chains, reducing material disruptions by 96% and enabling cross-functional adoption - recognized by Supply Chain leadership (ISC IGT Systems) at Philips.
- Selected for full-time role based on performance and impact in process design and cross-functional collaboration.

Executive Associate & Strategic Projects Lead | Corporate Gurukul · Singapore *Oct 2022 – Aug 2023*

- Managed end-to-end procurement and vendor coordination for strategic projects across APAC and MEA regions.
- Delivered 10–15% cost savings on ~€2M procurement spend through supplier negotiations and sourcing strategies.
- Reduced operational expenses by ~12% by implementing Power BI dashboards enabling spend visibility and control.

Deputy Manager| Navjyoti Foundation · Delhi *Feb 2019 – Sep 2021*

- Managed end-to-end supply chain and logistics operations for a large-scale NGO programme, executing SAP inventory transactions, vendor coordination, and distribution planning across multiple nodes.
- Served as primary interface across supply, logistics, and transportation functions, reducing issue resolution time and improving service levels under Project Unnati.
- Negotiated vendor contracts, delivering cost efficiencies while maintaining quality and regulatory compliance across the supply base.
- Monitored logistics KPIs and drove continuous improvement initiatives, resulting in measurably improved on-time delivery rates across the distribution network.
- Ensured full GMP/GDP compliance and supported internal and external audits with zero non-conformances recorded across the review period.

EARLIER EXPERIENCE

Includes roles in operations, compliance, and customer management across certification and automotive sectors, building foundational expertise in process optimization, vendor coordination, and performance tracking.

EDUCATION

MBA – Supply Chain Management | Maastricht University *2023 – 2024*

Thesis: Design of the NOK Handling Processes at Philips IGT: A Framework for Regulatory Compliance and Operational Efficiency
